LUMBAR SPINAL CANAL STENOSIS

Revisit & Review
Cadaver Hands-on Course

Course Director
Mr Andrew O'Brien
FRCS (Tr&Ortho)

9th June 2018

**Keele University,
Keele Anatomy and
Surgical Training Centre (KASTC)**

£1500 (exc VAT) RRP

£1200 (exc VAT) ISLASS Members

This course is a 360' full review and update on the state of the art surgical treatment options in cases of lumbar spinal canal stenosis.

The technical advances need to be applied to the individual clinical condition. In other words, this course focuses on proper patient-procedure selection among the main surgical approach options.

The hands-on lab part offers the chance to practice the surgical techniques .

Agenda

08:45	Registration and coffee
09:00	Introduction
09:15	Applied anatomical review
10:00	Clinical Picture
